## Company Profile ▼

Shenzhen Pknergy Energy Co., Ltd is a new energy company established in 1998, mainly engaged in lithium batteries, lithium iron phosphate(LiFePO4) batteries, and lithium lead-acid batteries, li-polymer batteries. PKnergy specializes in R&D, production, sales of energy storage solutions, and renewable energy solutions. Focus on becoming a high-tech enterprise of green energy and a battery solution provider for customized applications.

Since its establishment, Pknergy has been committed to serving communication, IT, home applications, finance, security, transportation, high-end consumer electronics, medical equipment, power tools and other industries involving batteries and power. After years of development, Pknergy has become one of the top lithium battery solution providers in the global market.

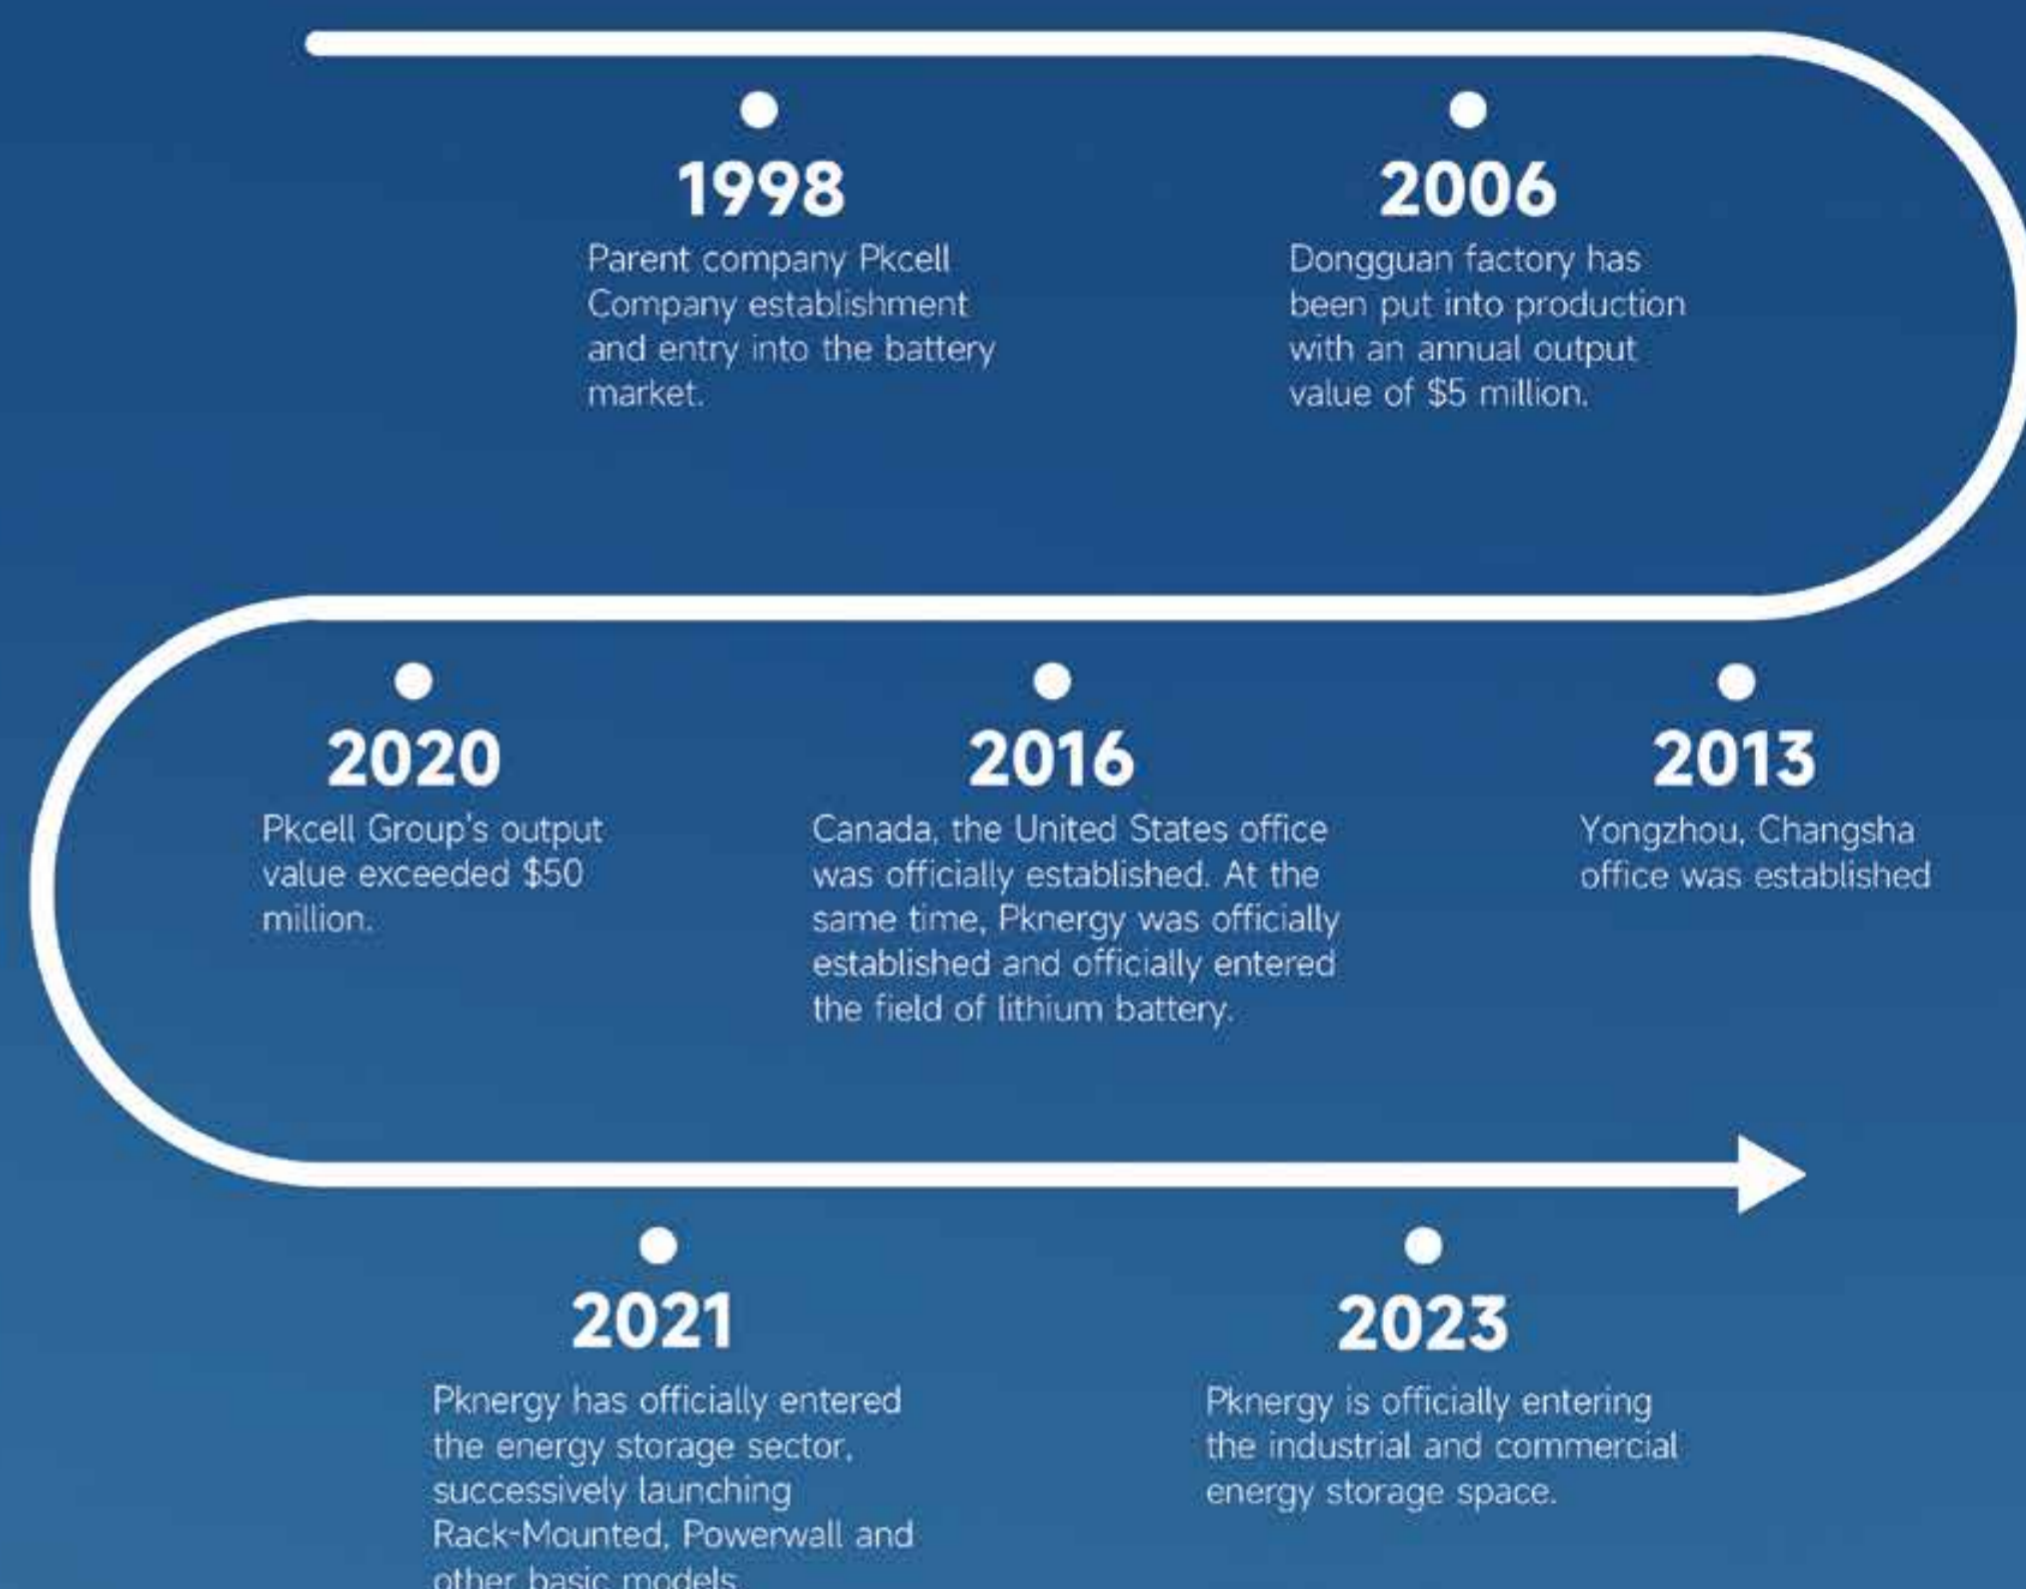

After years of development, Pknergy has become one of the top lithium battery solution providers in the global market.

At the same time, we have the most advanced ODM service, processing and production and the most powerful full supply chain system. As a participant in the global market, PKENERGY's products have passed CB, UL, CE/IEC, reach, RoHS and other international certifications. In addition, PKENERGY has also introduced ISO9001 and ISO14001 systems. Due to its rapid growth,

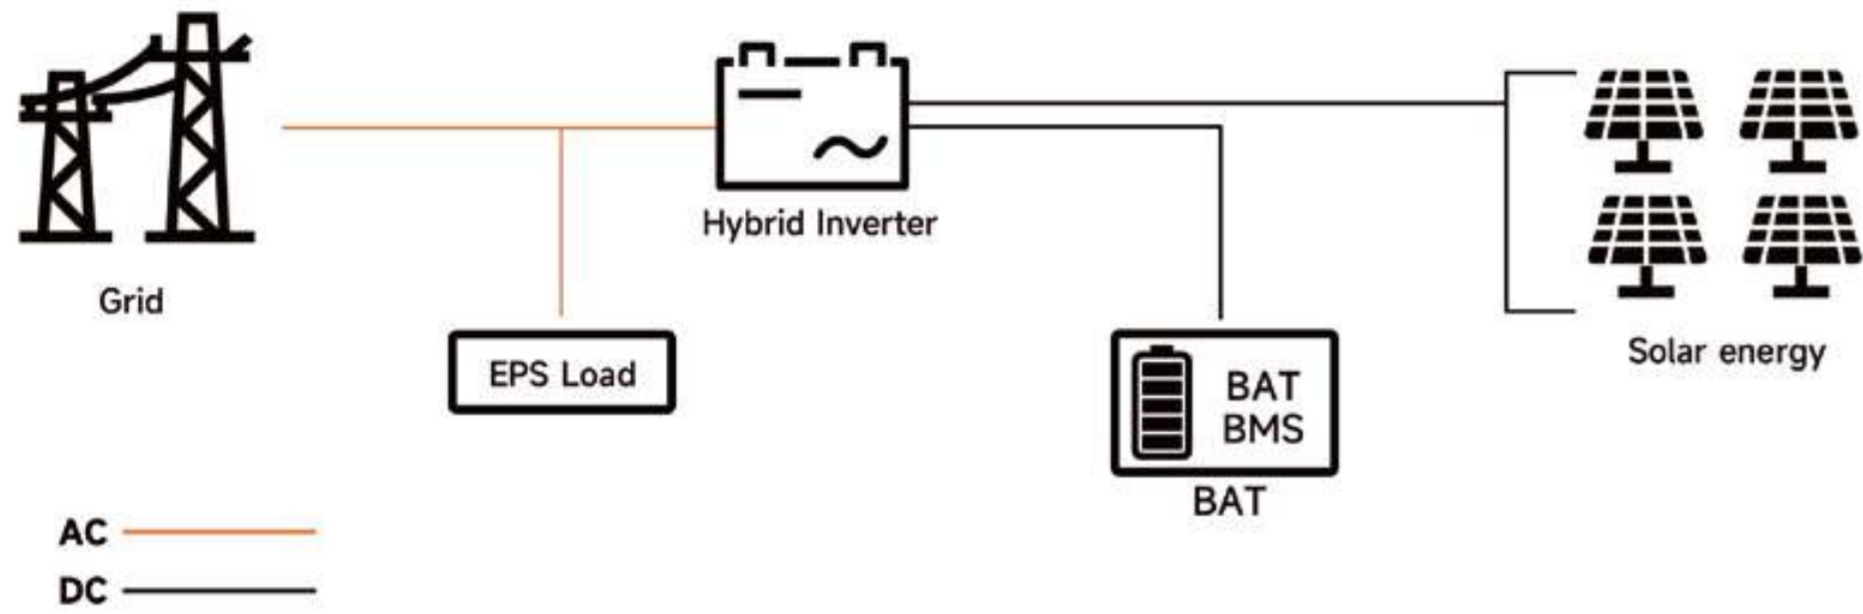

PKENERGY has introduced the best equipment, the most advanced technology and management system. The innovative attitude always brings customers the best product and service experience.

PKENERGY has established lots of logistics warehousing bases to efficiently serve customers in North America Canada, USA, etc.

## Technical Specifications(BAT)

Model	PK-512280P-M
Nominal Voltage	51.2V
Cell model/Configuration	3.2V280Ah(EVE)/16S1P(51.2)
Capacity	280AH
Rated Energy	14.336KWH
Usable Energy	12.9KWH
Max.Charge/Discharge Current	150A/150A
Voltage Range	48—56.5V
Scalability	Up to 10 parallel
Communication	RS232-PC, TYPE-C, RS485-Inverter, Canbus-Inverter
Cycle Life	≥7000cycles@25°C, 90%DOD,60%ECL
Design Life	≥15 Years

Operating Temperature	Charge:-10°C~50°C;Discharge:-20°C~50°C
Altitude (m)	≤2000
Humidity	≤95%

LFP technology plus smart BMS protection

Compact size and inset terminals safe protection design

Over 7000 cycles @90% DoD

**15**  
Years

15 Years service life 95% discharge efficiency

Metal case with custom color support (Upgradable to waterproof case)

## Multi-Purpose Battery Solution

**Small Size And High Capacity**  
Using 3.2V 280Ah high-capacity cell, small size design saves space.

**Internal Structure Upgrade**  
Small size-Upgraded with a 25% reduction in volume for a sleeker appearance.

**Double Protection Against Leakage**  
The control panel is equipped with air switch for double protection to ensure safety.

**APP Remotely Monitors Battery Status**  
Built-in WIFI signal. Download the APP through the QR code to remotely monitor, control and set up the battery.

**Universal Wheels Design**  
The bottom is equipped with universal wheels for easy movement and installation.

## Multi-Purpose Battery Solution

### Double Protection Against Leakage

The control panel is equipped with an air switch with insulating nut for double protection to improve safety

### Upgraded External To Prevent Touch

Positive & negative poles protected. After wiring, tighten the screws to prevent touching.

### Small Size Reduce Volume Occupied

Upgraded with a 25% reduction in volume for a sleeker appearance.

### APP Remotely Monitors Battery Status

Built-in WIFI signal. Download the APP through the QR code to remotely monitor, control and set up the battery.

### Side Handles & Back Hanger To Easy Installation

The back hanger adopts an inverted triangle design, easy to install with a load of over 300Kg.

## FEATURES AND ADVANTAGES

**DIP-free design & Automatically recognized**  
The DIP switch is improved and adopts a DIP-free design. You do not need to perform dialing operations when using it alone or in parallel, and the address is automatically recognized.

**Maintenance Window easy to replace fuse**  
There is a built-in fuse in the maintenance window. If there is a short circuit occurs, the fuse can be replaced directly at the window without dismantling the machine for maintenance.

**Protection level upgrad-ed to IP65**

From the waterproof rubber cap on the casing to the waterproof interface on the bottom of the battery, the cells and internal structure are fully protected.

**Advanced technology and design, Fashionable appearance**

The internal structure design are using the most advanced technology and manufacturing processes.The overall battery appearance is fashionable and practical.

**APP remotely monitors battery status**

Built-in WIFI signal. We will provide a QR code to download the battery remote control APP to help you monitor and set up the battery.

Internal Integrated BMS With Autonomous Monitoring Of Battery Safety

# PK-HES-6KW

Hybrid On & Off Grid Energy Storage Solar Inverter

6kW

**IP65 Rated**  
Engineered to last with maximum flexibility. Suitable for outdoor installation.

**On-Grid and Off-Grid**  
REVO HES series is suitable for on-grid and off-grid applications.

**Easy access**  
Accessible through a LCD touch screen and through the web.

**Remote Monitoring**  
Control and monitor your smart system on the move via our monitoring App and website.

**BMS**  
BMS Communication or lithium battery.

**Safe**  
Physical and electrical dual isolation, arth Leakage Current Monitoring, Anti-island protection, Insulation detection and so on.

**5 Years Warranty**  
Supplied with a full manufacturers warranty.

**Flexible Rate Tariff**  
Charge from the grid at off-peak time when energy is cheaper and discharge at peak time when energy is more expensive.

## High energy storage battery series

- Highly integrated: Productized system, integrating energy storage battery.
- PCs and power distribution, temperature control fire extinguishing, water immersion door magnetic and monitoring communication to fully control the operating status and risks of the system.
- Flexible parallel functions: with patent technology of VSG features and functions, can realize the functions of multiple equipment remotely parallel and on/off grid switching without communication lines.
- Excellent protection: Patent outdoor cabinet protection design, optimizing heat dissipation and air ventilation, prevent dust and rain. Front back and two sides with door for maintenance, easy to make multiple sets of systems side by side deployment on site, saving the floor space.
- Various functions: Standardized structure design, menu function configuration, solar charging module [DC-DC], and on/off grid switching module, isolation transformer and other components can be selected flexibly and efficiently under micro-grid and other applications.
- Space saving: Door mounted integrated air conditioning, does not occupy cabinet space, improving the available space of outdoor cabinet, keep top structure integrity, results in better waterproof effects.
- Intelligent management: Local monitoring screen can realize various functions such as system operation monitoring, energy management formulation and remote software upgrade of equipment.
